Announcements

程序代写代做 CS 编程辅导

- Next Tuesday is the mid-term examination. Choose 1.75h between midday and midnight. You need to do it online. More details on the next slide
- Next Monday (March 27) is no lecture, so you can focus on preparing for the exam
WeChat: cstutorcs
- Next week there won't be any labs or tutorials
Assignment Project Exam Help
- The two weeks after is teaching break.
Email: tutorcs@163.com
- After teaching break, we can bring the Monday tutorials back to the same week as other tutorials if desired. One public holiday on a Tuesday April 25, so we can have Tuesday tutorials following week?

Mid-term Exam Self-Recording

No Proctorio, less stress (Zoom instead)

程序代写代做 CS编程辅导

1. A minute or so before the exam, open zoom, start a new meeting (no one will join this meeting room, it will be you alone)
2. Allow zoom to have access to your camera and microphone and share your desktop
3. Click the recording button.
 1. Record locally - 3Gb of free space or account required (the local recording is password protected)
 2. Record on the cloud with ANU account (the cloud recording is password protected)
4. Do the exam as usual
5. Once you're done with the exam (that is you finished reviewing it and clicked 'Finish and Submit' in wattle) then stop sharing your screen, click the stop recording button on zoom and end the meeting
6. In the next 2 hours following your exam, post in the Hash of Mid-Semester Exam Video quiz the result of running this script on your self-recorded video
7. Keep your video until April 28th. If you recorded the video locally, then make sure to backup the video.

WeChat: cstutorcs

Assignment Project Exam Help

To test the recording (Please make sure to test BEFORE exam)
Email: tutorcs@163.com

1. do a 1-minute recording of yourself doing the Exam Drawing and Math Practice quiz and then watch the recording to make sure your screen and camera are being recorded (no need to submit or keep this test video).
2. Test the sha256 script by downloading it and running `python3 sha256.py <file>` where file is the name of any file.
